NEOCLASSICAL SERIES

The Neoclassical Suspended Ceiling Series—where timeless elegance meets modern architecture—reflects Optima Inovasyon’s meticulous attention to detail and superior craftsmanship. Drawing inspiration from the aesthetics of the Golden Ratio, this exclusive collection elevates living spaces to a whole new level through its symmetrical lines, sophisticated design language, and striking material combinations.

Each model creates impressive ceiling architecture by incorporating fabric-upholstered surfaces, sculpted MDF elements, gold profiles, and bespoke color combinations. Designed for application over drywall surfaces, the entire series lends a truly transformative character to the space.

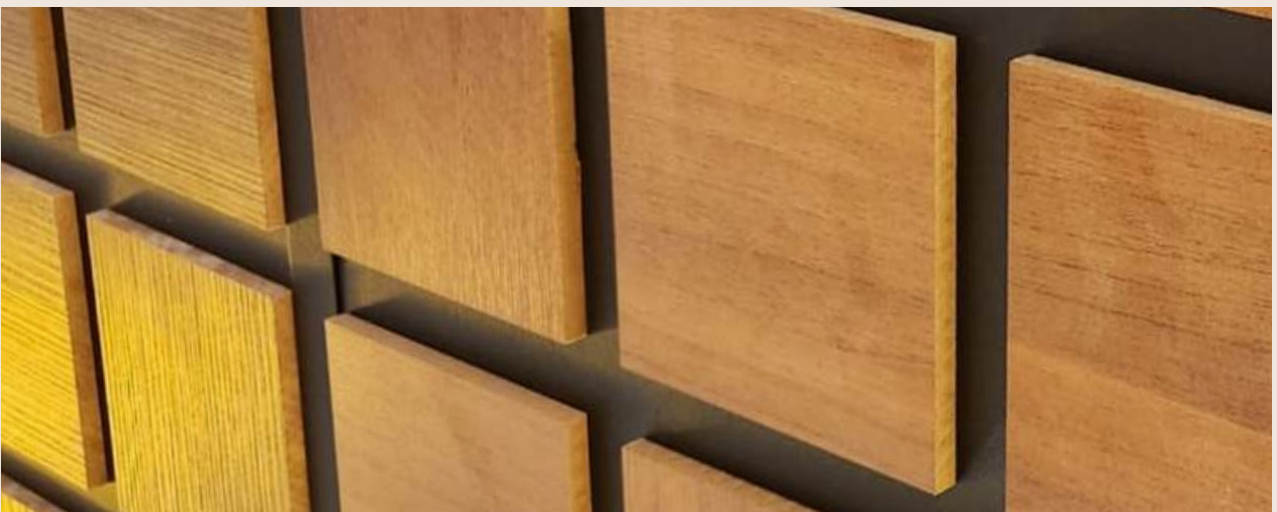

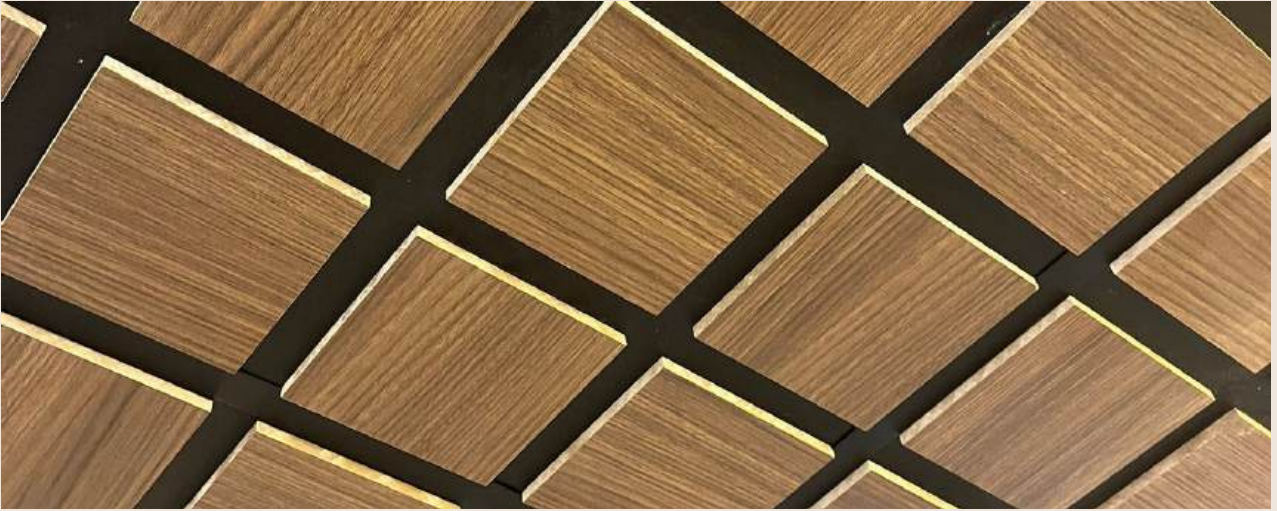

RELIEF SERIES

The Relief Suspended Ceiling Series—one of the most striking ways to create a three-dimensional character on architectural surfaces—is the product of Optima Inovasyon’s innovative design philosophy. It adds both aesthetic and volumetric value to a space through relief surfaces that create a sense of depth, symmetrical form transitions, and seamless material junctions.

Enriched with custom MDF forms and details applied over a plasterboard base, the Relief Series offers a unique ceiling architecture that blends the modern with the classic. Each model is custom-manufactured to fit the specific dimensions of the space, ensuring a perfect, seamless result.

RELIEF

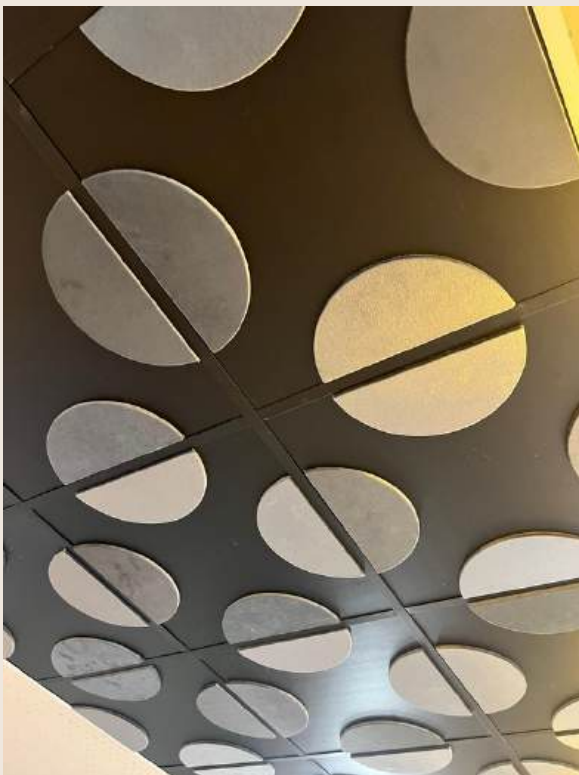

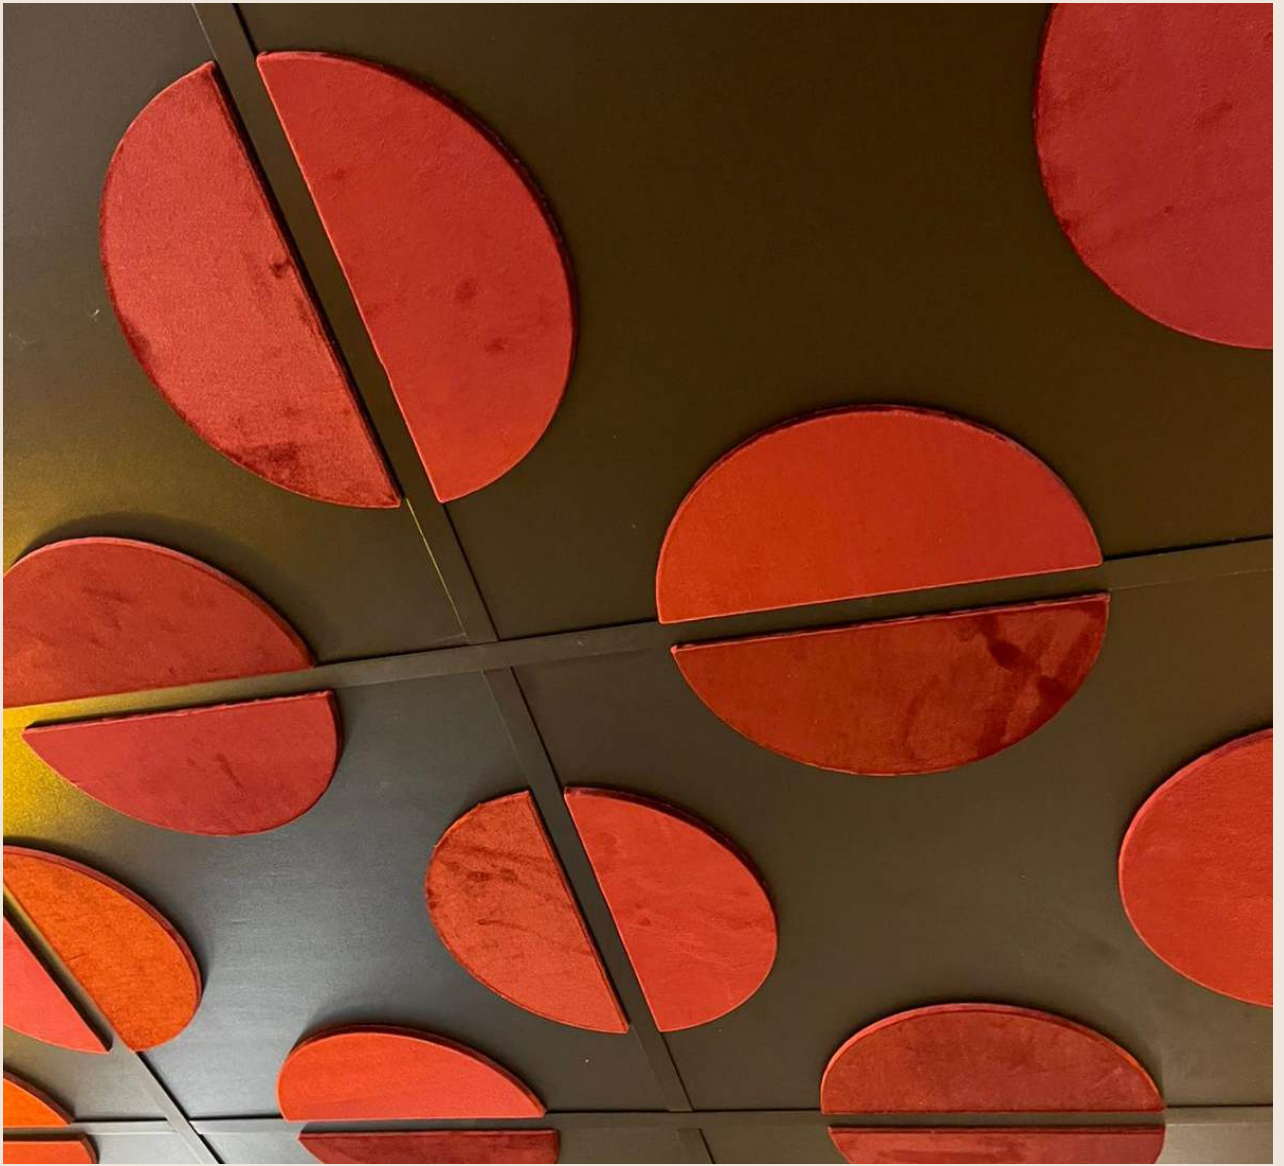

AVANT-GARDE SERIES

Offering a seamless blend of modern design aesthetics and classic form, the Avant-Garde Suspended Ceiling Series is one of Optima Inovasyon's most preferred premium collections. The series features avant-garde lines characterized by curved contours, elegant transitions, and decorative textures that add value to the space. Every model in the series is designed to infuse living spaces with artistic aesthetics, a strong decorative statement, and a distinctive atmosphere.

The Avant-Garde Series completely transforms the character of a space through a combination of fabric-clad surfaces, custom-cut MDF forms, gold-finish accents, and high-quality materials. All products are installed over drywall surfaces and manufactured to custom, project-specific dimensions.

EQUATOR SERIES

The Neoclassical Suspended Ceiling Series, where timeless elegance meets modern architecture, reflects Optima Inovasyon's meticulous attention to detail and superior craftsmanship. Drawing inspiration from the aesthetics of the Golden Ratio, this exclusive collection elevates living spaces to a whole new level through its symmetrical lines, sophisticated design language, and striking material combinations.

VIP CLASS SERIES

OPTİMA İNOVASYON ASMA TAVAN SİSTEMLERİ continues to make a mark in the industry with innovative solutions that blend quality, aesthetics, and functionality in architectural design. Its latest design masterpiece, the VIPCLASS suspended ceiling panel, was developed specifically for high-end interior projects.

Measuring 60x60 cm and featuring wood and leather finishes applied over a metal base, this suspended ceiling panel seamlessly fuses elegance with modernity. An 18 mm thick, specially lacquered, glossy wood frame detail integrated into the panel's upper surface transforms VIPCLASS into a truly prestigious ceiling system. For the suspension framework, a new, specialized system is employed that integrates Heavy-Duty and Hook-On components to ensure strength and security.

TECHNO- TEXTILE SERIES

Reflecting Optima Inovasyon's dynamic design philosophy, the Ekvator Suspended Ceiling Series is a distinctive collection that brings the bold geometric lines of modern architecture into interior spaces. Named after the flawless horizontal alignment of the equator, the series features defined contours and crisp forms, incorporating linear details that add character to the environment.

The Ekvator Series offers a contemporary ceiling architecture characterized by a two-part modular structure—comprising larger and smaller modules—where fabric-clad MDF surfaces meet brass-gold profiles. The entire system is installed over a plasterboard substrate, serving as a striking design statement within modern décor concepts.
